Parallax Consultancy – Pre-press Publishing Services

Our primary pre-press services are editing to make your text effective and proofreading to remove mistakes as we help you make your text the best it can be.

This amending and checking of text to suit each author's vision and any house guidelines is part of our core services. Additionally, we can help you in many other ways.

- **Trimming** – Sometimes manuscripts are too long but we can trim the word count without losing the essence of your book. In fact, this can tighten your style, improve readability and give your text greater impact. If this interests you, we'll perform a free sample trim of a long paragraph to show you the benefits.
- **Formatting** – Suitable formatting helps readability and is particularly important for non-fiction so let Parallax add this extra quality to your book.
- **Indexes** – Useful, accurate and easy-to-use indexes help readers locate specific information so Parallax will check your index to ensure that it's correct and effective.
- **Convert Word to PDF** – Convert your Word document to a print-ready PDF to reduce printer costs, to other PDF formats for different purposes such as onscreen viewing or an ebook, or customise it for your particular use. We can even personalise its properties and provide you with security settings to preserve the document.
- **Convert PDF to Word** – Convert a PDF document to Word so that you can modify it for your specific purposes.
- **Convert Hard Copy to Electronic Text** – If you have a hard copy of your text and you face the tedious and time-consuming task of re-typing it, we'll convert your hard copy to electronic text (minimum resolution 300 dpi).

- **Typesetting** – Get your manuscript ready for publishing with suitable paragraph and heading systems, indents, fonts, leading and breaks for layouts that will give your book a professional appearance.
- **Barcodes** – Need a barcode? Give us your ISBN and we'll convert it to a barcode so that your book becomes an efficient and effective commercial commodity.
- **ISBN** – If you're unsure about any aspect of your ISBN and it's ruining your publishing dream, don't worry. We'll help you when you're using our services.
- **Title** – Your title can persuade potential readers to purchase your book. We'll work with you and discuss ideas to help you create titles that best represent your work.
- **Cover** – Parallax can give you feedback on your covers, work with you through a series of drafts or even design them for you.
- **Printing** – We can guide you through the printing process and help you get a competitive price. We'll liaise with printers for you on each print run or use our associate printer if you require so that you produce your book efficiently and economically with minimum hassle.

Of course, you don't have to use all of our pre-press services – simply tell us what you require and we'll deliver it.
